PROFESSIONAL SUMMARY

Laravel-focused Full-Stack Developer experienced in building backend systems for web and mobile applications. Skilled in PHP, Laravel, MySQL, REST API development, database transactions, row-level locking, Stripe integrations, real-time communication, background queues, and third-party APIs. Experienced in coordinating development tasks, collaborating with international clients, and contributing to production applications.

WORK EXPERIENCE

Executive Laravel Developer | Softvence Agency | **August 2025 – Present**

- Architect and develop scalable backend ecosystems using Laravel, PHP, MySQL, REST APIs, and Laravel Sanctum.
- Design database architecture, relationships, complex migrations, and real-time workflows for production systems.
- Build authentication, payment gateways (Stripe & Stripe Connect), webhooks, push notifications, and background queues.
- Lead project sprint planning, task assignments, code reviews, and QA validation to ensure high technical quality.
- Communicate directly with international clients to clarify specifications, conduct sprint demos, and align deliverables.

Laravel Developer Intern | Web Shinez Technology | **July 2024 – December 2024**

- Developed a Student Management System using Laravel, including HR, administration, and attendance modules.
- Worked on database design, migrations, backend development, and REST API integration.

TECHNICAL SKILLS

Programming Languages:	C, PHP, JavaScript, SQL
Backend Development:	Laravel (10–13), OOP, MVC, Eloquent ORM, RESTful API Development, Laravel Sanctum
Database:	MySQL, Schema Design, Migrations, Indexing, Transactions, Row-Level Locking (`lockForUpdate`)
Payment Integration:	Stripe, Stripe Connect, Webhooks, Subscription Management
Real-Time & Background:	Laravel Reverb, WebSockets, Queues, Background Workers, Redis
Third-Party Integrations:	Firebase Cloud Messaging (FCM), Google Gemini API, Twilio
Frontend:	HTML5, CSS3, Bootstrap, JavaScript, jQuery, Blade, Next.js
Tools & Deployment:	Git, GitHub, GitLab, Postman, Linux CLI, Hostinger VPS, cPanel, Docker (Familiar)

FEATURED PROJECTS (SELECTED WORKS)

Ali Pacino — Multi-Branch Restaurant ERP & AI (pacinos.uk)
Softvence Agency | **Project Lead & Backend Developer**

- Developed multi-branch architecture with 89 Eloquent models, 8-role RBAC, and pessimistic row-locking (`lockForUpdate`) for concurrent POS inventory deductions.
- Integrated real-time Kitchen Display (KDS) via Laravel Reverb WebSockets and Google Gemini AI sales trend analytics.

BioVue Digital Wellness — AI-Driven Health & Telehealth (biovuedigitalwellness.com)
Softvence Agency | **Project Lead & Backend Developer**

- Contributed to 100+ secure RESTful APIs with Laravel Sanctum, custom rate-limiting middleware, and strict request validation.
- Integrated Stripe multi-tier subscription engine with webhook validation, automated trial handling, and Firebase FCM push alerts.

Connect to Inspect — Property Inspection Marketplace (Google Play • App Store)
Softvence Agency | **Project Lead & Backend Developer**

- Engineered Stripe Connect payout workflows with queued transfers, dynamic platform fee splits, and idempotency protection.
- Developed corporate client reporting engine with scheduled PDF exports and role-based permissions.

Find & Book — Multi-Vendor Booking & E-Commerce Platform (Google Play • App Store)
Web Admin & Mobile App | **Role: Sole Backend Developer**

- Developed the complete Laravel backend and versioned RESTful APIs powering both iOS and Android applications.
- Implemented time-slot booking management, Stripe payment webhooks, vendor subscription tiers, and earnings calculation.

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Science and Engineering — Stamford University Bangladesh
2018 – 2023 | CGPA: 3.84 / 4.00

Professional Certifications & Specialized Training:

- **RPL Web Design & Development (Level 03)** — National Skills Development Authority (NSDA) Bangladesh (2025)
- **Professional PHP & Laravel Development** — UY Systems Ltd & Pencil Box Training
